I, the undersigned, Dr

Address

Certifies that Mr, Mrs, Miss

born

has undergone a thorough clinical examination with a weight of kg/Lbs

blood pressure of A pulse of per minute, a normal rest electrocardiogram.

This ECG report at rest must be shown along with this certificate.

does not indicate any medical objection to marathon, about 120 Kms, or endurance trek in an arid climate.

Over the age of 40, an ECG during effort is strongly recommended in addition to the ECG at rest. The results can be attached to the medical certificate.
